Latest features

18th Jun 2014: We have introduced an RSS feed of [newest performances](#), which can be restricted in the usual way to certain lengths, or just those in hand or in tower. It is also possible to create [custom RSS feeds](#). Do [let us know](#) if it doesn't work as you'd like.

1st Jan: To help improve the quality of our data, it is now possible for logged-in users to flag duplicate performances. This is done using the new "Flag dup." link displayed on each performance. We have also introduced a page for generating league tables of [leading ringers](#).

4th Sep 2013: In recent months a number of organisations have been asking The Ringing World to introduce advertising on BellBoard and as a result we will be doing so in early September. We hope that users of BellBoard do not find this intrusive and encourage everyone to support our advertisers.

22nd Aug: Several new features have been added over the last few months. View [all compositions](#) that have been machine-proved, or use our [online prover](#). For instructions click the "?" icon. The "Amend" page has filters to find performances you have [not sent for print](#). And when [searching](#), a "|" can be used to denote alternatives.

16th Jan: To celebrate the first anniversary of BellBoard's launch, a year ago today, we have created new pages showing [all our featured performances](#), and the [most-liked performances ever](#). There is also a [new page](#) where you can view statistics on where you (or another ringer) typically ring in the circle, whether you've circled your local tower, and so on.

20th Dec 2012: You can now configure [email alerts](#) so that you receive notification by email whenever a performance matching your search criteria is submitted to BellBoard. Also, the order of [search](#) results can be configured by selecting "Display advanced functionality".
